2.30pm onwards	3
3.30pm onwards	7
4.30pm onwards	12
5.30pm onwards	12

Curriculum Evening Evaluations

Further comments:

The teachers did a great job in explaining and the handouts were very helpful – Reception parent.

Very informative, thank you very much – Year 2 parent.

It was good to feel included in the explanation of the curriculum, rather than waiting to hear about it at parents' evening – Year 6 parent.

Could it be later in time if possible, with provision for children – Year 3 parent.

Thank you for inviting us to the school. It's great to spend time seeing what the children do during the day. Feel more involved and included now – Year 5 parent.

Really useful, I'm particularly keen on Mrs Jordan's idea re: parent attending a session during the school day – Year 1 parent.

Very informative sessions, thanks. I think it may be useful to have a 'bank' of info/strategies on the website to help parents with understanding/helping with homework –Year 1,3, 6 parent.

It was lovely to come in to see the classrooms – Reception, Year 2 parent.

What did parents find most useful?

A small insight about what is being taught and how grading of their abilities is changing.

All of it to be honest.

Understanding the set up of the school day and the methods to aid learning.

Learning the phonics and understanding how the children are taught in class.

The individual areas of learning and how they were broken down to enable my understanding.

Knowing what is being taught and when.

Knowing what the children are learning about.

Hand outs provided, useful to see teaching techniques used (nursery).

Expectations of what children are working towards... understanding the areas of learning and possibly achieve by the end of year.

Changes in curriculum, showing extra work children have to undertake.

All useful... gave idea of school day. Also more understanding of classroom/teaching, enables me to communicate effectively with my child.

Great to speak to Mrs Whitelaw other than at parents' evening. Enjoyed seeing what children are doing and where all their homework fits in with school work.

Very informative.

Seeing the scope and variety of the work alongside the SATs.

Very useful information about phonics, explaining classroom routine and layout.

Finding out about phonics.

Learning how best to support my child at reading and writing.
